OBJECTIVE

Aspiring to leverage my software engineering education and hands-on experience in IT and support roles to excel as a Junior Software Developer. Eager to contribute to team success through hard work, attention to detail, and excellent organizational skills. Motivated to learn, grow, and excel in software development, particularly in a collaborative environment that fosters innovation and continuous improvement.

EDUCATION

Centennial College of Applied Arts and Technology, Toronto, CA

Advanced Diploma in Software Engineering Technology, September 2021 – August 2024

CERTIFICATIONS

- Data Analytics Course, Google, May 2023
- CCNA/CCNP Certification, In Progress

TECHNICAL SKILLS

- Languages & Libraries: Java, C#, React, HTML/CSS, JavaScript, Node.js, R
- Database Systems: MySQL, Data Studio
- Operating Systems: Windows, Linux
- Tools & Technologies: Git, GitHub, Microsoft Azure, Microsoft Office, Oracle

PROFESSIONAL EXPERIENCE

IT Analyst

MAVES International Software, Toronto, CA, May 2023 – Present

- Developed and maintained e-learning web applications using HTML/CSS, JavaScript, React, and Node.js, significantly improving application responsiveness and user experience.
- Apply technical skills in SQL queries, and shell scripting at both Linux level and

Windows using software such as Visual Studio Code, IBM Data Studio, putty, WinSCP, and other similar software

- Collaborated with cross-functional teams to design, develop, and implement scalable software solutions for various client projects, ensuring adherence to best practices in coding standards.
- Participated in Agile development processes, including sprint planning, stand-ups, and retrospectives, to continuously improve team velocity and product quality.
- Monitor, investigate, answer, resolve, and log application incident issues as reported and addressed in the MAVES Service Desk Issue tracking application.

IT Support

World One Import Inc., Toronto, CA, September 2021 – December 2022

- Utilized SQL queries, shell scripting, HTML, and JavaScript for data manipulation and project development
- monitor, investigate, resolve, and log application incidents.
- Documented all events and solutions in ticketing systems like Confluence, JIRA, and Zoho, improving issue resolution efficiency.
- Engaged in programming projects, demonstrating strong problem-solving skills and technical understanding.

Graphic Printing

Print Geek - Toronto, CA, Date – August 2020 to September 2021

- Operated on different graphic printing machines
- Quickly learned new skills and applied them to daily tasks, improving efficiency and productivity.
- Designed new graphic content
